

QIP Number	Name of project	Location	Project description
1	Support to the Civil Defence Center in Tyre	Tyre	The project involved the procurement of an electric power generator connected to a lighting tower with 4 projectors having ability to rise manually around 8 meters high and rotate. The equipment enables Civil Defence personnel to carry out effective rescue operations at night.
2	Construction of a side walk	Blat	The project supported the construction of a sidewalk along the main road. Located near the public school, the side-walk provides safety to all pedestrians, especially students.
3	Support to garbage sorting project	Ebel Es Saqi	The project involved the construction of a hangar for waste sorting and a metal base for a water tank with 5000 liters capacity with a 4 taps and a washbasin. The hangar enabled the municipality to launch a "sorting at the source" program in every household and initiate basic garbage sorting operations for the whole town.
4	Training of medical professionals on COVID-19	Bint Jubayl, Tibnin	This QIP supported the conduct of training of four days – two days for Tibnin Public Hospital medical staff and two days for Bint Jubayl Public hospital. Training topics included IP&C measures, PPE, Triage, Quarantine and Isolation, Disinfection and Diagnosis and treatment. The goals of the training was to raise awareness of the modes of transmission of the virus, how to differentiate between asymptomatic, pre-symptomatic and symptomatic COVID-19 infected persons; definition of COVID-19 case; determining transmission, how to screen, quarantine, isolate etc.
5	Support to Tyre Vocational School	Tyre	The project sought to equip the Tyre technical school with 25 computers in order to strengthen the capacity of the school in providing better quality of education to students who are enrolled at the school and who hail from all over Tyre Qaza.
6	Provision of agricultural tractor and its accessories	Kunin	This projects supported the purchase of an agricultural truck with accessories to support the efforts of the people in the village (around 400 families) to work in the agriculture sector.
7	Purchase of ECG machine for dispensary	At Tiri	The project supported the purchase and installation of a Electrocardiogram machine (ECG) in the dispensary of At Tiri which is managed by both the Municipality and the SDC of Bint Jubayl. An average of 400 persons avail of the services provided by the dispensary each month.
8	Provision of water pumps for water reservoir	Bourj Al Molouk	The project seeks to support the access to water for the residents of the village through provision of water pumps for the water reservoir.
9	Capacity building of women	Debbine	The project supported the purchase of equipment to help conduct training on food manufacturing for 32 women from Debbine and six other neighbouring villages (Blat, Wazzani, Kham, Deir Mimes, Marjayoun and Ebel Es Saqi). Training on various topics was conducted over a period of eight days (4 days of training for a group of 16 women at one time).

10	Municipal food processing factory	Naffakhiyah	This project supported the purchase of equipment for the municipal food processing factory established by the municipality.
11	Support to municipal nursery	Markaba	The project supported the agricultural nursery established by the municipality which not only benefits farmers/locals of Markaba but also those from adjacent villages. UNIFIL support helped provide for an agricultural tent with an irrigation net, a water pump and a water tank; provision of 20 m3 of agricultural soil and provision of trees, seedlings and plants.
12	COVID19 equipment for Meiss Al Jabal	Meis Al Jabal	The projects intervention is to curb the COVID-19 pandemic in the municipality of Meis Al Jabal through providing various equipment. The equipment helped provide 12 Oxygen concentrators, 7 infrared thermometers, 5 Nano steam guns, 100 overall suits with shoe covers, 5 Sphygmomanometer with stethoscope, 12 Fingertip pulse oximeters, 500 PCR tests with extraction kits and 7 digital blood pressure monitors.
13	Capacity building of women	Houla	The project helped the purchase of 3 sewing machines and trained 45 women of the Houla Mothers society on various topics including vocational training, entrepreneurship training etc.
14	Farming equipment for Deir Siriane	Deir Siriane	The intervention helped provide farming equipment, Cistern to transport water, trailer (with iron grille on the sides) and a mobile tank (wheeled - equipped with water pump) to be used for various community needs.
15	Clean up of Tyre beach	Tyre	The intervention supported the provision of numerous cleaning materials/equipment and PPEs to clean up the beach of Naqoura all the way to Litani river following the oil spill.
16	COVID-19 support	As Suwannan	The intervention supported the municipality by providing them with hygiene kits (bleach, sanitizer, detergent, masks etc) which was provided to infected people and their closest contacts to check the spread of the virus.
17	Project on training social workers on 'Stress management and overcoming trauma'	Tyre	This QIPhelped conduct sessions to help social workers who are showing signs of empathy fatigue, and stress due to COVID and the economic crisis in the country. Through these sessions, social workers had the opportunity to practice more self-care, while improving their communication skills and empowering them to develop greater resilience. 56 social workers will be put through these sessions.

20	Electronic equipment for municipal public library	Aytil	The project provided equipment in support of the 'Public Municipal library located at the municipal building (constructed in 2010). The library is already operational and has some basic furniture and books as shown in the photos. The municipality is keen to develop this further by equipping it with desktops, computer tables, 1 LCD projector and screen. This is to provide residents with a space where further education can be fostered.

21	Support to public primary and high school	Al Taibe	The project supported the primary and high schools of Al Taibe with equipment and items to help them provide a better educational space to the 800 students who are enrolled there. The overall number of students attending public schools has increased due to the economic crisis and the increasing number of families unable to register their kids in private schools.
22	Provision of reaper binder for Majdal Silim	Majdal Silim	The project supported the purchase of a reaper-binder to help with planting and harvesting. Both male and female residents who depend on the crop produce have benefitted.
23	Support to four LRC centers	Tibnin, Bint Jubayl, Rumaysh and Chebaa	This project supported the purchase of 50 oxygen concentrators for distribution to centers in Rumaysh, Tibnin, Bint Jubayl and Chebaa. These machines are critical for those who are COVID positive and are experiencing breathing difficulties.
24	Agricultural support to farmers through provision of tractor via LRA	Tyre Caza	The project supported the provision of an agricultural tractor with six blades (brand new) to support the food security through farming of properties owned by LRA in Ras Al Ayn area.
25	Provision of agricultural tractor and its accessories	Hallusiyat	The Projecthelped provide an agricultural tractor with a water tanker, transportation trailer and ploughing rails to serve different purposes for the benefit of the residents.
26	Support to public schools within Jabel Amel Union	Jabel Amel Union	The project essentially supported the provision of various items (furniture and other educational equipment) to benefit schools in Adeisse, Majdal Silim, Qabrikha, Markaba, Houla, Suwwanah, Tulin, Blida and Meiss el Jabal. Besides these schools, the teachers training center in JAUoM was also equipped with an interactive board and a laptop to support conduct of various other educational activities that are undertaken at the centre.
27	Provision of agricultural tractor	AL Fardis	This project was cancelled.
28	Provision of 120 educational tablets to students of two public schools	Tyre	The project supported the procurement of 120 Tablets from the local Market and its delivery to two Public Schools for Girls in Tyre. The two schools are the Tyre Public Intermediate School for Girls and Tyre Secondary Public School for girls. The sole beneficiaries of this project are girl students from poor families who are currently facing difficulties in keeping up with the on-line education and are under serious threat of having to drop-out from school.
29	Provision of pick up truck benefitting CD centers in Arkoub region	Hebbariye	The project supported the procurement of a 4*4 used vehicle for use by the Civil Defence Centre for efficient conduct of its operations.
30	Support to CD Centers in SE AO	Kleyaa	The project supported ten centers in SE AO by providing them with essential fire-fighting equipment namely fire beaters and collapsible water pumps to help personnel conduct effective fire-fighting and rescue operations.
31	Nylon for rain water collection pond	Baraashit	This project helped purchase materials and undertake works to insulate the rain water collection pond for the benefit of the residents.

32	Equipment for Al Duhayra Public School	Al Duhayra	This project supported the purchase of items such as plastic tables, plastic chairs, storage units, various outdoor playing equipment etc. The project benefits the entire population of the village.
33	Agricultural equipment for farmers	Al Arkoub Union	The project supported the procurement of various items such as a tractor, lawnmower, chain saw, sprayer, wheel barrow etc. The agricultural equipment is available to farmers in need to increase their food production.
34	Vocational training on sewing for women	Wazzani	The project supported the conduct of a capacity building training on sewing and tailoring different types of clothing. It targetted 15 Lebanese women from Wazzani selected by the municipality according to the economic vulnerability and interest and commitment. It also supported the purchase of three sewing machines, materials like fabrics, threads, needles, and scissors and other items.
35	Water filter rehabilitation	Sribbin	This project is part of a bigger project which comprises of the rehabilitation of the water purification system in the village. It supported the purchase and installation of equipment to carry out water filter rehabilitation.
36	Support to Al Farah School of Special Needs	Adeisse	The project is in support of Al Farah School which caters to children with special needs. The center lacks some electronic equipment to conduct such online education and also specialized occupational therapy equipment which will help them in providing better services. The project benefitted 17 students with special needs from "Al-Farah" School, their respective families, the teachers and school administration as well.
37	Compost facility for Dayr Qanun	Dayr Qanun	This intervention aimed at supporting the organic waste treatment section in the town's recycling plant which allows the municipality to manage its recyclable waste in a comprehensive way and produce compost from the treated organic waste.
38	Support to agriculture	Bani Hayyan	The project supported the purchase of items like cistern, trailer, valves, pumps and other agricultural equipment. The beneficiaries are approximately 2,800 persons and include all the community groups such as the women (52 %), men, youth and elderly of the village.
39	Generator for LRC Tyre	Tyre	The project supported the procurement of a 45 KVA generator to aid the LRC in its functioning. This helps the blood bank and its medicine and vaccination centers run optimally without any interruptions.
