

QIP Number	Name of project	Location	Project description
QIP # 1	Rehabilitation of Public High School	Dayr Kifa, SW	The project includes insulation work and painting of an area of 2700 m2 (roof, exterior walls, and painting of entrance and playground area). The wall paint on the outside of the school is crumbling; the paint is peeling off the and cracking on several spots. There are approx. 400 students studying at the school and the number is expected to increase in the academic year 2018-2019 due to the needs of the surrounding Municipalities
QIP # 2	Facilitation of experience/information sharing for students of Bint Jubayl Public Technical School	Naqoura, SW	The Bint Jubayl Public Technical School is requesting for facilitating on-the-job experience/information sharing for 12 students over a period of 12 days. This information sharing will be provided in areas such as HVAC, Electrical, Generators and Transport. The QIP is to support transportation costs and insurance coverage of these students from Bint Jubayl to Naqoura and coverage for the period of their engagement in UNIFIL.
QIP # 3	Professional development training/workshop for women members of cooperatives of SE	Deir Mimes, SE	This QIP is basically about building capacities of 30 women from 8 different villages of SE on specific food topics; such as making sweets and pastries, making Kishek, pizzas and tomato sauces. The association is covering the cost of the trainer and also providing the venue for a total cost of \$1600;
QIP # 4	Water network for Sribbin	Sribbin, SW	This project is about installing water pipes over an area of 650 meters and installing connectors and accessories. The project was coordinated with ESS and the Water Establishment office in Tyre. UNIFIL QIP will cover the installation of main water pipes while the Water Establishment office will support the installation of water connections to the house.
QIP # 5	Support wall for main road	Bidyas, SW	This project is about support wall for main road. The Municipality is also contributing by covering the cost of widening the road which is around \$3000. UNIFIL support is being sought for covering the cost of concrete, large rocks and metal bars for both the base and the wall in addition to labour for the whole support wall.
QIP # 6	Canopy over main stand of stadium	Maarub, SW	The project is about supporting the construction of a canopy over the stadium's main stand. This will provide a great space not only to residents but also to UNIFIL in conduct of their outreach activities.
QIP # 7	Professional development training/workshop for women members of cooperatives of SW	Abbasiyah, SW	This is a QIP with The Jood Al Ard Cooperative which aims at building capacities of 25 women on food processing in specific topics. The workshops will not only build their skills in processing food, but also give them techniques on improving their marketing.
QIP # 8	Equipping Tyre UoM with an operations room for Rapid Response Unit	Tyre, SW	This QIP is about supporting the Tyre Unions of Municipalities Disaster response through establishment of an Operations Room. This entails procurement of digital sets, computers and other items.
QIP # 9	Roofshed over social center	El Fraidiss, SE	This QIP seeks to support the construction of a roof shed for the Social center in Al Fardiss. The social center is the only town hall in the village, where local organize social events and other celebrations.

QIP # 10	Construction of public recreational park	Arzun, SW	The QIP is support for the construction of a recreational park. The Mayor has discussed this project with his residents and the request has come particularly from the women and poor families. Housewives have requested for a space where they can bring their children to play and have some valuable family time. The Municipality has promised to hire people for the upkeep of the park,
QIP # 11	Support to Civil Defence Center	Qabrikha, SE	This QIP seeks to support the CDC in Qabrikha by providing equipment which includes air lifting bag, fire extinguisher, metal cutter etc. This support will help the center in its firefighting and rescue operations which will be beneficial to the entire community,
QIP # 12	Provision of ambulance	Adeisse, SE	This QIP is about supporting the procurement of an ambulance fitted with necessary medical equipment that can be used to transport patients to the hospitals. The availability of such an ambulance is very important for the municipality bearing in mind the village's history of medical emergencies.
QIP # 13	Support to Civil Defence Center	Kleyaa, SE	This QIP is about supporting the CDC with firefighting equipment necessary for proper functioning of the CDC. The equipment being sought include fire extinguishers, masks, boots, vest, tool box etc. This will help in fire-fighting efforts undertaken by the center and contribute to creating a protective environment.
QIP # 14	Rehabilitation of football playground	Marwahin, SW	The project is about rehabilitating the football field which is used not only by school students but also by town residents. The land belongs to the Municipality and has been given by the Municipality to the school. The project will benefit around 200 youth from the village and neighbouring villages.
QIP # 15	Rehabilitation of laboratory in Marjayoun Public Secondary School	Marjayoun, SE	The project basically involves support to the school by rehabilitating the science laboratory by carrying out flooring works, painting and electrical works and also some equipment for the laboratory. This is essential support to the Ministry of Education and Higher Education, since the students from this school come not only from Marjayoun but also from Chebaa, Taibe etc.
QIP # 16	Equipping Sports Center in Blida	Blida, SE	The QIP aims to support the local sports center which will improve access to sporting/recreational facilities for community residents of Blida. 1500 women and men not just in Blida but in supporting villages are expected to utilize the services. This is a comprehensive project undertaken by the municipality which comprises of a sports center featuring a recreational area (already existing), hall for fitness and martial arts (which is what this QIP seeks to support) and a sauna and jacuzzi.
QIP # 17	Rehabilitation and provision of equipment to Public School	Ghanduriyah, SE	The project is in INDOBATT AO and it entails rehabilitating a playground in public school that is currently coated by asbestos.
QIP # 18	Training of trainers and workshop on Origami	Different locations, SW	The capacity building project targets 19 villages from different cluster of municipalities situated in MALBATT, GHANBATT, ITALBATT etc, it entails building capacity of youth/children in origami arts and TOT for 210 teachers. Origami helps develop hand-eye coordination, fine motor skills and mental concentration. Use of the hands directly stimulates areas of the brain. Origami is used in various therapeutic settings, including art therapy and in stroke and injury rehabilitation.
QIP # 19	Enhancing women's capacities in mediation skills	Different locations, SW	The capacity building project targets 28 women from 20 villages in different cluster of municipalities situated in SW AO, the project will be instrumental in ensuring the full and effective participation, involvement and representation of women in the local community
QIP # 20	Electrical distribution and synchro panels	Kunin, SW	This QIP seeks to support the purchase and installation of electrical distribution/synchro panels to regulate and coordinate capacities of generators at various times. This is necessary to ensure that the three generators are used optimally at all times.

QIP # 21	Capacity building of youth of three municipalities	As Siddiqin , SW	This QIP basically involves providing 25 young men and women from three municipalities (Jibal Al Butm, Qana,As Siddiqin) with life skills and tools to enable them to form a youth advisory committee to work with their municipalities and communities. 16 of the 25 youth targeted are expected to be females. By engaging with the municipalities, the youth get greater awareness of the role, duties and responsibilities of the municipality.
QIP # 22	Construction of conference room and library hall	Deir Siriane, SE	This QIP consists of completing a conference hall and public library in Deir Siriane new Municipal building. Works basically involve internal plastering of walls and ceilings, installation of cable networks and lights, building of toilet, installation of doors and windows, stair railing etc. The Municipality is currently using a closed and vacant public school as its municipal offices. This public school is likely to be reopened soon and start functioning as a school again. In view of this the municipality has started construction of a new municipal building with the support of the Jabel Amel Union of Municipalities.
QIP # 23	Provision of garbage containers	Qana, SW	This QIP basically involves purchase of 1000 red bins for non-organic wastes which will be placed in various neighbourhoods. UNIFIL is supporting the purchase of 250 bins, while UNDP is also going to support with 250 bins. The Municipality will cover the cost and procure the remaining 500 that it needs. As part of this project, awareness sessions for residents are also planned on need for sorting at source.
QIP # 24	Rehabilitation of meeting hall in Municipality	Hebbariye, SE	The project aims at completing the conference and meeting hall in the municipal building in Hebbariye. The multipurpose hall will be used for organizing lectures, workshops trainings and other social events. The hall is also expected to be used by civil society organizations for activities that focus on women empowerment, child protection and youth integration.
QIP # 25	Provision of multi-purpose truck	Kafer Hammam, SE	The project aims at providing the municipality of Kafer Hammam with a specialized mini truck with winch for better and quicker maintenance of street lights. The truck will allow the village to quickly repair street lights, solar lamps, maintain the cable network and also attend promptly to cables which run the risk of getting cut off due to trees overhang.
QIP # 26	Purchase of diving equipment for Marine CDC	Tyre, SW	This support in purchase of diving equipment constitutes support for a GoL institution, which is the Lebanese Civil Defence. The equipment sought to be purchased are basically diving equipment. Support is sought to procure 3 sets of these equipment.
QIP # 27	Drug Awareness ToT in South Lebanon	Ayta Ash Sha'b, SW	The QIP is in support of conduct of ToT for civil society representatives on the issue of drugs. The objective is to provide young people with accurate information about drugs, build capacity of civil society groups who work with youth and lead the implementation of drug awareness programs among youth and parents.
QIP # 28	Support for rehabilitation facility in treatment center	Taibe, SE	The QIP supports the procurement of learning and educational equipment to help the center improve its services to its beneficiaries which include persons with special needs.
QIP # 29	Support for Civil Defence Center in Khiam	Khiam, SE	The center is requesting for fire beaters, water mist fire extinguishers, firefighting pumps and different types of portable fire extinguisher. Procurement of these equipments will help the CDC personnel to deliver better services that will benefit the entire community.
QIP # 30	Installation of central heating system for Public School in Houla	Houla, SE	This is about support to the installation of a central heating system in one floor of the public school which has the KG and primary classes. The floor consists of one PC room, 8 classrooms and one teacher's room.

QIP # 31	Science Laboratory for Public School	Qallaway, SW	This school has around 250 students including around 100 Syrian students. 50% are girls. Currently students have access to only theoretical knowledge in science and not practical educational due to the absence of a proper science laboratory. The provision of this laboratory will enable the students to get better science education in their school.
QIP # 32	Road rehabilitation	Kafer Chouba, SE	The project consists of rehabilitation of a village road in Kafer Chouba. It is the road that links one part of the village with the Blue Line side of it. The road is a vital artery for the local farmers and is a road that is used by UNIFIL and LAF besides local residents. It is a 3200 meter long road link. During winter, the limited width of the road poses a challenge with respect to traffic safety and has the potential to lead to accidents. According to the Mayor, the road represents the only road available to local inhabitants to access their agricultural lands and farms.
QIP # 33	Prefab room for communications equipment for ISF	Tyre, SW	This is a project that seeks to assist the ISF with communication equipment and a prefab room to help ISF in their work. This will help ISF respond to duties covering the districts of both Tyre and Bint Jubayl. This project has been identified and coordinated with the DG of the Directorate. This will complement a project that UNIFIL SW supported in Sultaniyah. The request is for a VHF base station antenna which will link all the ISF stations in Tyre and Bint Jubayl. The required antenna and related devices will enhance communications between the Headquarter and the rest of the units in Tyre and Bint Jubayl.
QIP # 34	Equipping cultural center and public library	Al Qantarah, SE	This project consists of equipping the cultural center and public library in Al Qantarah. This was highlighted as a priority for the Mayor. The QIP seeks to equip the cultural center/public library with office equipment, furniture and supplies. The center will be run by the Al Qantarah Municipality.
QIP # 35	Facility for collection of sorted waste recyclables	Aynata, SW	This is about support to the construction of a recyclable sorting station wherein waste will be sorted and sent to factories and plants nearby. Besides benefiting residents, the project will also create job opportunities for residents. The station will be managed by the municipality. The land on which the facility will be established belongs to the municipality
QIP # 36	Support to football field	Aytarun, SW	Aytarun Municipality wants to set up a min football field on a piece of land that belongs to the municipality. This will benefit around 250 children/youth in the village during summer. The MC has taken a decision to set up this field in their meeting on 21 March and has already started spreading gravel and done other levelling works. This project is being co-funded together with Municipality and IRISHBATT.
QIP # 37	Courts digitization	Tibnin and Marjayoun, SW & SE	This project seeks to equip two courts in Tibnin and Marjayoun with computers (with special applications and programs already designed by the EU project) and a network set up that will help them remain connected to the central level in Beirut. Staff will be trained on the usage of software and hardware of the new applications. This will help in efficient retrieval of information, data sharing and also in timely dissemination of judgements and rulings.
QIP # 38	Provision of equipment and furniture for Public Primary School	Kafer Kela, SE	This project seeks to support the Primary School of Kafer Kela with furniture and other educational equipment, since the current ones in use are not consistent with necessary standards. The school was established in 1942 and needs maintenance and upgrades in its furnitures. The project will benefit 194 students (109 female and 85 males in kindergarten and their teachers).
QIP # 39	Installation of LED lights	Meiss El Jebel, SE	The project seeks to support the installation of 380 LED lights on the road from the main square of Meiss towards Shaqra. The road is winding and lack adequate lighting, which impacts negatively on public safety. The Municipality undertakes to cover the regular maintenance and cost of relocation of old bulbs.

QIP # 40	Improving water network	Dibbine, SE	This project is about support to the construction of a new auxiliary water pipeline network to support and feed the existing water reservoirs of the village with bigger amounts of water. The additional water will increase the daily amount of water available to the population especially during summertime. This pipeline will help transfer the water from the well into the concrete water tank located in the western side of the village, which will benefit the residents, particularly during hot summer months.
QIP # 41	Improving educational services for children attending Alpha center in Tibnin	Tibnin, SW	The project seeks to support the purchase of an active board and two laptops for Alpha educational center in Tibnin. This will help the center improve delivery of its educational services to children and also encourage more children to participate in the activities.
QIP # 42	Provision of equipment for Public Primary School	Ebel Es Saqi, SE	This QIP seeks to support the provision and installation of a CCTV camera system and an LED TV to be used for educational purposes. The project will also cater for training of personnel in the use of the equipment. The project will benefit 84 students (47 female and 37 males) including children in kindergarten and 25 teachers..
QIP # 43	Equipment for Al Imad Cooperative for Rural Foods	Hariss, SW	This QIP is about supporting the procurement of equipment which will be used by women of this cooperative. It covers the cost of purchase of grinding machines, a freezer and a stove. It will also support the installation of these machinery/equipment and training for their personnel. The machines/equipment will improve and increase food production and make functioning of the cooperative more efficient.
