

QIP Number	Name of project	Location	Project description
QIP #1	Support to the Civil Defence Center in Tyre	Tyre	The project involved procurement of an electric power generator connected to a lighting tower with 4 projectors having ability to rise manually around 8 meters high and rotate. The equipment enables Civil Defence personnel to carry out effective rescue operations at night. The direct beneficiaries of the project are around 40 volunteers of the center who now have better equipment that will enable them to work in the dark especially during the conduct of such operations.
QIP #2	Construction of a side walk	Blat	The project involved construction of a sidewalk along the main road. Located near the public school, the side-walk offers safety to all pedestrians, especially students. Given that the sidewalk is close to a school, it has improved safety for school children.
QIP #3	Support to garbage sorting project	Ebel Es Saqi	The project basically involved the construction of a hangar for waste sorting and a metal base for a water tank with 5000 liters capacity with a 4 taps and a washbasin. The hangar has helped the municipality to immediately start a "sorting at the source" program in every household and initiate basic garbage sorting operations for the whole town.
QIP #4	Training of medical professionals on COVID-19	Bint Jubayl, Tibnin	This QIP involved training of four days – two days for Tibnin Public Hospital medical staff and two days for Bint Jubayl Public hospital. Training topics included IP&C measures, PPE, Triage, Quarantine and Isolation, Disinfection and Diagnosis and treatment. The goals of the training was to raise awareness of the modes of transmission of the virus, how to differentiate between asymptomatic, pre-symptomatic and symptomatic COVID-19 infected persons; definition of COVID-19 case; determining transmission, how to screen, quarantine, isolate etc.
QIP #5	Support to Tyre Vocational School	Tyre	The project equipped the Tyre technical school with 25 computers in order to strengthen the capacity of the school in providing better quality of education to students who are enrolled at the school and who hail from all over Tyre Qaza. The new computer lab allows teachers to better prepare their online lessons and conduct practical sessions for the students.

6	Provision of agricultural tractor and its accessories	Kunin	This projects supports the purchase of an agricultural truck with accessories to support the efforts of the people in the village (around 400 families) to work in the agriculture sector. The municipality has a driver to drive the tractor and will cover his expenses, which will reduce this cost from the beneficiaries, who will only pay the cost of diesel.
QIP #7	Purchase of ECG machine for dispensary	At Tiri	The project supported the purchase and installation of an Electrocardiogram machine (ECG) in the dispensary of At Tiri which is managed by both the Municipality and the SDC of Bint Jubayl. An average of 400 persons are already availing of the services provided by the dispensary each month.
QIP #8	Provision of water pumps for water reservoir	Bourj Al Molouk	According to the Mayor, the main priority for the village is to ensure access to water for residents of the village. The water tank cum reservoir has a 250 cubic meter capacity (7x11x3.5) and will be connected to the main water network. The reservoir needs two water pumps – one (with more power) for the upper parts of the village, and second (with less power) for the lower parts of the village. The purpose of the tank is to solve the water shortage problem in the village, especially the upper parts of the village, but water pumps are needed to ensure sufficient water supply.
QIP #9	Capacity building of women	Debbine	The project supported the purchase of equipment which helped in the conduct of training on food manufacturing for 32 women from Debbine and six other neighbouring villages (Blat, Wazzani, Khiam, Deir Mimes, Marjayoun and Ebel Es Saqi). Training on various topics as mentioned in the proposal (making jam, sweets pastries etc) will be provided over a period of eight days (4 days of training for a group of 16 women at one time).
QIP #10	Municipal food processing factory	Naffakhiyah	This project seeks to support the purchase of equipment for the municipal food processing factory being established by the municipality. The cost of constructing the factory and catering for purchase of washers and freezers are being taken care of by the Municipality. The mission covered the cost of the cutting, the peeling, packaging machines, and the washing and soaking basins.
QIP #11	Support to municipal nursery	Markaba	The project seeks to support the agricultural nursery being established by the municipality. The nursery would benefit not only the farmers/locals of Markaba but also those from adjacent villages. UNIFIL support is being requested for provision of an agricultural tent with an irrigation net, a water pump and a water tank; provision of 20 m3 of agricultural soil and provision of trees, seedlings and plants.

<b>QIP #12</b>	<b>COVID19 equipment for Meiss Al Jabal</b>	Meis Al Jabal	The projects provides the municipality of Meis Al Jabal with equipment to help curb the spread of the COVID-19. The equipment requested include 12 Oxygen concentrators, 7 infrared thermometers, 5 Nano steam guns, 100 overall suits with shoe covers, 5 Sphygmomanometer with stethoscope, 12 Fingertip pulse oximeters, 500 PCR tests with extraction kits and 7 digital blood pressure monitors
<b>QIP #13</b>	<b>Capacity building of women</b>	Houla	The project seeks to purchase 3 sewing machines and train 45 women of the Houla Mothers society on various topics including vocational training, entrepreneurship training etc.
<b>QIP #14</b>	<b>Farming equipment for Deir Siriane</b>	Deir Siriane	The interventions provided farming equipment, Cistern to transport water, trailer (with iron grille on the sides) and a mobile tank (wheeled - equipped with water pump) to be used for various community needs.
<b>QIP #15</b>	<b>Clean up of Tyre beach</b>	Tyre	The project supported the procurement of numerous cleaning materials/equipment and PPEs for cleaning the beach of Naqoura all the way to Litani river following the oil spill.
<b>QIP #16</b>	<b>COVID-19 support</b>	As Suwannan	The projects supports the purchase of hygiene kits (bleach, sanitizer, detergent, masks etc) to help the municipality curb the spread of COVID-19.
<b>QIP #17</b>	<b>Project on training social workers on 'Stress management and overcoming trauma'</b>	Tyre	This QIP is about conduct of sessions to help social workers who are showing signs of empathy fatigue, and stress due to COVID and the economic crisis in the country. Through these sessions, social workers will have the opportunity to practice more self-care, while improving their communication skills and empowering them to develop greater resilience. 56 social workers will be put through these sessions. Out of these 56 participants, 15 will be chosen to become future trainers and will be equipped with needed knowledge and skills to conduct these programs for their co-workers and other members of the communities.
<b>QIP #18</b>	<b>Support for Lebanese Red Cross</b>	Tyre	This project supported the purchase of 15 oxygen concentrators. These machines are critical for those who are COVID positive and are experiencing breathing difficulties.

<b>QIP #19</b>	<b>Benefit from your garden training'</b>	Rachaya Al Foukhar	The overall objective is to improve sustainable livelihood opportunities for the 24 women in the Rachaya al Foukhar community. Specifically, the project will provide training to the women on nursing, grafting, landscaping and life skills and provide them with the needed equipment for the after-training requirements.
<b>QIP #20</b>	<b>Electronic equipment for municipal public library</b>	Aytit	The project provided equipment in support of the 'Public Municipal library located at the municipal building (constructed in 2010). This is to provide residents with a space where further education can be fostered
<b>QIP #21</b>	<b>Support to public primary and high school</b>	Al Taibe	The project seeks to support the primary and high schools of Al Taibe with equipment and items that will help them provide a better educational space to the 800 students who are enrolled there.
<b>QIP #22</b>	<b>Provision of reaper binder for Majdal Silim</b>	Majdal Silim	The project is about supporting the purchase of a reaper-binder with specifications mentioned' in the Mayor's letter to help with planting and harvesting. Both male and female residents who depend on the crop produce will benefit.
<b>QIP #23</b>	<b>Support to four LRC centers</b>	Tibnin, Bint Jubayl, Rumaysh and Chebaa	This project seeks to support the purchase of 50 oxygen concentrators for distribution to centers in Rumaysh, Tibnin, Bint Jubayl and Chebaa. These machines are critical for those who are COVID positive and are experiencing breathing difficulties. Because of the current economic situation, several poor patients, who need this equipment are unable to buy it because of the cost involved.
<b>QIP #24</b>	<b>Agricultural support to farmers through provision of tractor via LRA</b>	Tyre Caza	The project aims at the provision of an agricultural tractor with six blades (brand new) to support the food security through farming of properties owned by LRA in Ras Al Ayn area.
<b>QIP #25</b>	<b>Provision of agricultural tractor and its accessories</b>	Hallusiyat	The Project is about providing an agricultural tractor with a water tanker, transportation trailer and ploughing rails to serve different purposes. This will support local farmers who will be in a position to use this tractor for minimal fees or free, which will help in their cultivation efforts; will help the municipality in improving its basic services to locals because they will also use it to transport water for irrigation or for related purposes particularly during summer and help extinguish small fires by supporting local fire-fighting teams in the field.
